THE GRAND PROMO TERS OF HEALTH. HOLLOWAY'S PILLS

The grand secret of attaining happiness is to securiood health, without which life is stripped of a life pleasure. The first irregularity of any function should be good health, without which hie is stripped on a mag-sures. The first irregularity of any function should checked and set right by appropriate doses of the line parifying Pilloy which strengthen the system

Derangement of the Bowels, Liver and Stomach

Determination of Blood to the Head.

This is generally occasioned by some dreng clarity (it is stomach and bowels, which, if not quickly attended a frequently terminates latally. A few does of the ects mous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the finite. Vertica dimness of sight and other indications of approaching apolexy, are en irely dissipated by a course of this admirable modeline.

For all debilitating disorders peculiar to the or and every contingency perilous to the life of women, youthful or agod, married or single, this mild but speedy remedy is recommended with friendly extractness. It will correct all functional derangements to which they are subject. Scrofula and all Skin Diseases

Coughs, Colds and Asthmas.

No medicine will cure coids of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Fills may be relied on as a certain and Lever tailing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat aight and morning. Indigestion-Billious Headache

Indigestion—Billious Headache.
These complants may sometimes be considered triflip
but it should be borne in mind that by inattention and
neglect, they often end most servously. Give early
thought to a dyranged stomach take Holloway's Pills, rul
his collobrated (bint ent over thep it of the stomach, and
you will shortly perceive a change for the better in your
digestion, spirits, appetite, strength and energy. The
improvement, though it may be gradual will bethoroug
andlasting. Holloway's Pills are the best remedy knownin

last resort before cutting, and it proved enecuan. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Meccurial Disease.

New Olleans, 25th August 1859.

Br. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you rome of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Yenered and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by seendary symptomiderable part of it, so that I believe the disorder by another was attacked by seendary symptomiderable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive fothe weather that on a damp day she suffered exerciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Fraternally yours, G. V. LARRIMER, M. D.
Rheumatism, Gout, Liver Complaint,
INDEPENDENCE, Preston Co., Va., 6th July, 1859,
DR. J. C. AVERT, Str., I have been efflicted with a
paintul chronic libenmatism for a long time, which
affled the skill of physicians, and stuck to me in
spite of all the remedies I could find, until I tried
your Sarssparilla. One bottle cured me in two
vecks, and restored my general health so much
that I am far better than before I was attacked. I
think it a wonderful medicine. J. FREAM.
Jules Y, Getchell, of St. Louls, writes: "I have
been afflicted for years with an affection of the Liver,
which destroyed my health. I tried everything,
and everything failed to reture me, and I have
been a broken-down man for some years from no

of Consumptive Patients
in advanced Stages
Of the Disease.

This is a remedy so universally known to surpass
any other for the our of throat and lung complaints,
that it is useless here to publish the evidence of its
virtues. Its unrivalled excellence for coughs and
colds, and its truly wonderful cures of pulmonary
disease, have made it known throughout the civilized nations of the earth. Few are the communities,
or even families, among them who have not some
personal experience of its victory over the subdiaxe all know the droutful family of these disonances
and as thoy know, too, the effects of this remedy,
we need not do more than to assure them that if has
now all the virtues that if did have when making
the cures which have won so strongly upon the
confidence of mankind.

We took occasion a few days since to state that Confederation was neither dead nor dying because red-tape had naturally thrown some obstacles in the way of immediate and definite negotiation for the Northwest Territory; and at the same time we said that when the great object of the negotiations was brought fairly and honestly before the intelligence of English statesmen and English people, those obstacles, however formidable they might appear at first, would melt away before that intelligence, and the necessity for instantaneous action as quickly as unseasonable snow melts before the heat of the sun. We find we had neither over-rated our information nor the sound sense of our nation. Before two days have passed we learn that much that can stand in the way of Confederation has disappeared in a much shorter time than we ourselves calculated upon, and enables us to-day almost to see the foundation stone laid of that mighty Empire which shall retain the Dominion in the hands of England for time immemorial, but with a liberality and expansion of idea never yet known in her history, Wе were aware from sources that could not be questioned there was no particular danger to Confer deration likely to arise from the nego-

upon the question is put an end to, by the following announcement. " The transfer of the Territories of the Hudson Bay Company to the Government has been agreed to by the Chairman, Lord Kimberley. A measure to that effect will be introduced into Parliament in the course of a few days." Here then the friends of Confederation, and through Confederation the friends of England have great reason to rejoice, because those who in i.art are opposed to both, have always maintained that it was in the transfer, or rather nontransfer, of these territories, the scheme would fail. Our prediction that it could not be so will prove true. A little more fidelity to our cause, a little more patience in working out its success, and perhaps before the present year ends, we shall see this great revolution accomplished by the simple agency and sheer force of

## .mont Seamen Deserters.

EDITOR COLONIST, -About six months ago I addressed a letter to you giving an account of a trip I made in the steamer Anderson to the Sound, and my visit to Port Madison and other Mills. In the letter I gave you an account of several conversations I had with seamen who informed me they had run away from English men-of war ; you did not publish my remarks, why you did not I cannot form any idea, except you did not paper, or that you had not time. I now call

your attention to the conversation I had with these men, so that the seamen belonging to H M ships in Esquimalt may know what they will have to contend with if they should be so foolish as to run away from their vessels, expecting to better their condition on the other side, but which, unfortunately for them, they never do. One young fellow told me he had been captain of the main-top on

board the Topaze, he and four of his shipmates were induced to leave their ship by the representations of a man who came from the Sound, and told them that he could get them \$50 to \$60 a month at the saw mills on the American side; we crossed the Straits with the d--d villain, in a boat which he told us he had stolen from Victoria; he charged us \$10 each for our passage , he cobbed us of \$35, and left us at Port Ludlow to shift for ourselves. We applied for work, and instead of getting from \$50 to \$60 a month, we were offered \$30 and only two of us got employment. We had to work from six o'clock in the morning until six at night. with only half an hour allowed us to dinner. I asked him how he and his shipmates got on since they left their ship. He answered, Very badly, sir; many a time we were without sufficient food, and often as you see me now without shoes to our feet.' I asked him again why they did not return. His answer was, 'We were afraid, because our shipmates would laugh at us.' Many others whom I met told me similar tales, and all of them deeply regretted having left the service. This is a plain unvarnished statement of what I heard from these misguided men, and I trust it will be a warning to others who may be inclined to leave H M Service. Many of these poor fellows never reach the

BY ROYAL COMMAND JOSEPH GILLOTT'S CELEBRATED STEEL PENS.

Sold by all Dealers throughout the World. jy

Now, it is a fact, positive and well-known, that there is no such bulwark and assistant for the Stomach as PLANTATION BITTERS.

This splendid Tonic is now used by all classes or people for every symptom of a "Stomach out of order,"

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work and enable it to resist and it hrow off the approaching dauger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. If we much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her certains progresses with no snoones draw, and, flexy mix.

Important Certificates:

" • • Thou will send me two bottles more of thy Plantation Bit ers. My wile has been greatly benefited by their use. Thy friend, Aux Cursus, Philadelphia, Pa."

" \* \* \* I have given the Plantation Bitters to

The Plantation Bitters make the weak strong, the languist brilliant, and are exhausted Nature's great restorer. The Boys' Collegiate School. The Annual Examination of the Boys' Collegiate School, and the distribution of prizes to the pupils of the same, took place yesterday afternoon in presence of His Lordship Bishop Hills, several clergymen, visitors, and the parents and friends of many of the pupils. The school-room was decorated by the boys with garlands of flowers and flags. The Bishop addressed those present as to the nature of the examinations held-which had been conducted daily for over a week-both viva voce and on printed forms, as in previous years, and several gentlemen assisted the Principal in the work. It was suggested to the parents that they themselves look over the papers and see if there were not some questions which would puzzle even older persons than the children. A new feature introduced in the way of exercises was the examination in commercial affairs. His Lordship and other speakers urged the parents and friends generally to co-operate with the Principal and teachers of the school-who deserved every praise and encouragement-to further the interests of the institution.

The Rev. the Principal spoke as to the financial condition, &c. It appears there was an average attendance of fifty boys during the year; that there were about twenty-five new pupils since last examination, and considering the diminished population of the nity the everage of pupils attending the school was nearly equal to former years, which is thought may be attributed to the reduction in monthly fees from five to two and a balf dollars. It was also stated there was a reduction of

of \$1,000 in the management as compared with the previous year, notwithstanding there was a loss of \$402. The efficiency was not at all impaired, but on the contrary, the Bishop thought the progress was more satisfactory. The following is about the list of prizes, in books, presented by His Lottishin to the most efficient answerers of the ques-

tions given :- The Governor's prize to the most proficient boys, and the Bishop's, by way of encouragement, to those boys who had made the most progress during the year Divinity-(Governor's Prize) Cridge, Marvin, Munro. (Bishop's Prize) Dorman, Fisher

Latin-Cohen, Holmcken J., and Helme ken H.

Marvin, Harvey O.

Arithmetic-Cohen, Jas. Tolmie, McKinley and Munro A. English Grammar-Jamieson, Flewin

Helmoken H. History and Geography-Cridge, Barnard

Harvey H. The Commercial Prize was taken by Cohen, and that for Euclid and Algebra by

Dr Helmcken and other gentlemen addressed the visitors and boys, when the proceedings were closed.

ST JOHN'S DAY .- In conformity with the custom of the Order on their annual celebras tion, the Masonic fraternity attended divine worship yesterday at St John's church. The Rev Mr Gribbell read the service, and His Lordship the Bishop preached the sermon. His Lordship selected 11th chap, of St Matthew 11th ver., for the subject of his discourse in which he gave an elequent and able history of St John's life, and the great principles of christianity as shown in that life, conclud ing with an appropriate allusion to the Ma gonic fraternity, whose order was founded and built up on the living precepts of our common faith. His Lordship was very impressive and earnest in the delivery of his sermon, which drew forth afterwards the most marked expressions of admiration. Although gation was not as large as usual on such occasions. The collection after the service, according to announcement, was equally

Accounts from all parts of the gold diggings are of the most favorable character strikes, every report that comes in conveys something hopeful and cheering. Shafts are going down steadily and surely through slum and mud to the spot which previous pres pecting has indicated where lies the hidden ore. The tunnels are last approaching the back channels where the 'lost leads' are playing hide and seek. The bed-rook drain has had its trial and may now be considered safe for the season. The hydraulic pipes are again pouring their torrents upon the hillsides, which are gradually uncovering their deep bidden stony base, and if we do not prove a false prophet, in one short month we will be able to record the largest yield of gold that has ever been reported from Cariboo .- Cariboo Sentinel.

divided between the Royal Hospital and

Female Infirmary.

STRIKE ON ANTLER .- A very important strike has been made on Antler Creek which it is thought will lead to the discovery of the lost lead, for which there has been so much search and which has been so long shrouded in mystery. A prospecting party have struck a back channel on the opposite side from where the old lead gave out, ip which they had found very rich pay dirt though they had not found the bottom. Mi Glover, one of the discoverers, came over on Sunday last to get the claims recorded and let the feat out' to the ever watchful Adair, and early next day, before even the miners on Antler knew of the discovery, 'Johnny' had fifteen hundred feet staked off for himself and partners and was back to Richfield in time to record the claim alongside the discoverers and to witness the rush for the new diggings. The discovery has caused considerable excitement, and it is thought that Antier will again come up and equal its palmiest days,—Cariboo Sentinel.

### Municipal Council.

Tuesday, June 23, 1868. The Council met at the usual hour. The Mayor and Councillors Lewis, Gibbs, Crump and Jeffery were present.

A communication was received from the Chief Engineer of the Fire Department, thanking the Council on behalf of the Fire Department for the courteous reception given on the 17th and for the interest generally taken in the welfare of the Department. Placed on file. A communication was read from Mi

Trounce in regard to the removal of street obstructions. A resolution was passed to notify Mr Trounce that unless the obstructions fronting lots 91 and 92 on Kane street be removed in three days the Council will proceed to remove the same. The Committee on the selection of a new

site for a cemetery was granted further time to report.

A resolution was passed to notify the representative owner of property at the intersection of Government and Humboldt streets, that if half the amount be contributed towards the construction of new steps thereat, the Council will pay the balance.

The Council then adjourned till Tuesday

RIVALS OF THE BIG TREES IN AUSTRALIA The British Government is inquiring into the means to be adopted for the preservation of the forest trees in the Colony of Australia, and the reports of the investigations connected therewith has shown us some curious facts. There was measured, near the source of the western branch of the Wori Yallock Creek. a tree (Eucalyptus Amygdalina,) that had been feiled for spiliting; its diameter one Loat shove the ground was 19 feet, and at 70 feet from the butt end, 9 feet; its length in a straight line was 330 feet. Many of the additional standing trees were, however, evidently of a much greater height than this. A grove of the same kind of timber, at the head of the creek, contained on one acre of ground 20 large trees, of an apparent average height of about 350 feet, and 38 saplings of a height of 50 feet, the whole heing surrounded by a dense underlaige teril trees, musa, dogwood

CARIBOO ITEMs. - The telegraph line to William Creek is being rapidly constructed by Mr Buie, and it is now expected that communication with the outside will be had by the 10th of next month. Flour has tallen in the mines to \$20 per barrel for extra and \$18 for superfine; it is hoped it will be down to \$15 for best. The increase of general stocks of goods on the Creeks has been latterly much augmented-two or three pack trains arrive daily. Barkerville property is very high; Mr Floyd has sold his store to Mesers Greenbaum Bros. for \$2000. and D Edwards his place, to A C Campbell for \$1,000.

FROM YALE.—We contense the following from the Examiner of Menday:—The heat was 94 in the shade on Thursday. The forest, back of Hope, was fired by lightning last week. Only 50,000 lbs. of freight left during the week. Farm hands are scarce in the interior, \$75 a-month being (flered. The people of Lillooet complain about the condition of the trail between that town and Lytton, and wish to know what their member is about! Dominion day (1st July) is to be kept in grand style. A salute of 21 guns is to be fired in the morning, and there is to be banquet in the evening at the Colonial Hotel. Preparations are also being made for celebrating the 4th.

FREE SCHOOL EXAMINATION .- The Midsummer examination at the Central School, Fort street, commences to-day with the junior division and to-morrow (Friday) the sentor division will undergo an examination, closing in the afternoon for the holidays. On Monday next the examination of the Disthe church was reasonably filled, the congre- trict School will take place, The exercises of each day will commence at 9 a.m. All interested in the maintenance of the Free School system and in the educational progress of the youth of our city are cordially invited to attend.

THE CHARGE OF ENTICING NAVAL SEA-MEN TO DESERT - Wm. Lyons was brought gings are of the most favorable character. MEN TO DESERT — Wm. Lyons was brought become the great highway of negions befor the past week we may dot dean of a consteller roller magnetiate yeardray morn-litween the old world and the new—it but
stoke shall continue with disappointment, buy in statemen, on the charge of procuring judiciously managed, is, we say, undoubtor a single claim abandoned, but on the con-trary, although we do not hear of many The Bench addressed him to the effect that fluence on the face of the whole Anglo-The Bench addressed him to the effect that the means of getting the men away was traced to him, the accused, and taking the best view of the case, he, the Magistrate, came to the conclusion that Lyong had not proved his inngogance, He would, therefore, and accordingly imposed a fine of £30, or six months' imprisonment with hard labor.

THE steamer Enterprise arrived yesterday afternoon from New Westminster, bringing a Cariboo express, treasure to the amount of \$75,000, and considerable freight in skins and salmon in barrole and fresh. Her list of passengers from the mainland was unusally large, amongst whom we observed Hon De Cosmos, Rev Mr and Mrs Hayman, Mr and Mrs Nelson, Rev Mr Somerville and several other townsmen who have been spending a fortnight in the interior.

THE FAVORITE. This beautiful schooner, 125 tons, is now nearly completed, and has commenced taking in cargo for the Sandwich Islands, preparatory to sailing in a few days. As already stated, the Favorite was built at Sooke a short time since by Capt. McKay, and is in every way a credit to the Colony May she have a successful career. THE steamer Active arrived from Nanaimo

yesterday afternoon having left that place in the morning. She reports nothing new in the way of coal shipments to what we have already announced. The Active will leave for Portland on Friday afternoon.

THE MASONIC PICNIC .- The necessary arrangements to make the Masonic picnic a success were completed yesterday. The route to the grounds on Mr J D Pemberton's property, will be marked from the turn-off at Fort street, with red flags.

y placed the steam-yacht Leviathan at the disposal of the Telegraph Company, and she started yesterday morning to make arrangements for the repair of the San Juan cable. The line was down between Olympia and Portland when the Enterprise left New Westminster yesterday morning, which will account for an absence of telegraphic news in to-day's Colonist.

Missing .- A man by the name of Charles Bond, who left home from the head of the Arm, last Wednesday night week, to come to town to buy provisions, has not been seen or heard of since. His boat was picked up on Wednesday near Craigflower bridge. It is supposed that he fell overboard and was drowned. Augrion Salk .- The sale at the residence

of J G Sheppard, Esq., Maplewood, will take place to-day at 11 o'clock sharp. Williams' omnibus will run from ten to eleven o'clock.

SUSPICIOUS CHARACTER.-W McGilvray Was emanded yesterday at the Police Court on a charge of being a suspicious character.

## Cariboo Mining Intelligence.

[From the Cariboo " Sentinel.'

WILLIAM CREEK.

Owing to the interruption caused by the high water and the danger which threatened the bed-rock drain, the product of gold the past week has been less than for any previous week during the month. The principal claims, however, have all got to work again, and if no new interruption takes place a steady yield is anticipated.

The Sheepskin cleaned up 93 ozs and the Baldhead, Welsh and Cariboo about expenses. The Raby washed up 40 ozs—Forest Race 118 cm—The Ballerat co are pushing in their drain, but it will probably take two months to complete it.—It is nydraune companies are all in full blast, but none of them will probably wash up before the first of July. July. STOUT GULCH.

The Floyd company cleaned up for the week 42 ozs.—The Alturas company in two days washed up 8 ozs.—The Taftvale washed up for the week 130 ozs—The Jenkins co. over expenses—The Mucho Oco co 89 ozs. There is one company ground sluicing and getting a little ray. LOWHER UKKEK

The Calaveras co took out for the week 150 vz3—The First Chance co 50 ozs. Several Chinamen are making from \$10 to \$12 GROUSE CREEK.

Nothing new from this creek. Work is progressing favorably with no abatement of faith in its richness.

CANADIAN CREEK.

Very little change since our last report. Everything continues favorable and hopes are on the increase.

## ANTLER CREEK.

No new developments have been made in the vicinity of the late strike. Several cf the new companies who have taken up claims are commencing to work, and will probably ina short time test the new diggings.

MOSQUITO GULCH.

The following are the wash-ups for the week:—Minnehaba, 300 ozs; Willow, 160; Hocking, 162, Jeffries, 40; Holman, 20; Discovery co, wages; Point, good pay.

RED GULCH. Discovery co washed up for the week 40

ozs — Tom and Jerry, paying well — Black-smith, United and Tipton Slasher are paying wages.
The yield of the two gulches this week is about 1000 ozs.

OUTLYING CREEKS.

Prospecting is going on vigorously on Coulter, Mustang, Martin, Island, Hard-

scrabble and several other creeks and guiche Brown & Co are taking out good pay on Keithley Creek.

Two companies are prospecting on Black Bear Cleek.

QUESNELLE,

About fifty Chinamen are mining on the small creeks above the Forks, and are making from \$10 to an ounce per day.

## A Highway across the Continent. (Frem the New York Albion )

As the offspring and, in fact, favorite remaining child of Mother Britannia this virgin deminion of the north, with its magnificent inland seas and navigable rivers; its agricultural, mineral and forest wealth; its Atlantic and Pacific Oceans; its hardy race and healthy climate-and situated, as it is, on what must speedily

Saxon race. But the fulfilment of these expectations must, we will candidly admit greatly depend upon the prompt and decided action of the mother country. While the gain to these wide spread provinces by recent commercial improvements has been immense, the lack of capital is seriously felt, and in all new countries this is, in fact, the chief and most embarassing drawback or impediment. A union of the four chief Atlantic provinces has been effected, and already the Pacific colonies as well as the interior territories are clamouring for admission. But how can this be accomplished without the means of intercommunication? The Act of Union secured to the dominion the capital necessary for the immediate construction of the International Road-and let us hope that not a moment's time will be lost in carrying forward this much needed enterprise. And now for the next imperative step. In a word, if Great Britain would not lose her proud position as the leading maritime nation of the world, she must at once step boldly forward and aid in constructing, not a lumbering old style railway, but a first class double track railway across the continent, on British American soil. Precious time is even now slipping away. This great work should have been, ere this, under contract. What is one hundred million pounds to the great and fabulously wealthy British

nation, with its annual income of eight hundred and twenty million pounds? Simply nothing, when the importance of the work is concerned. Why, the income of Britain's labouring classes alone can build this great international highway, even at this high estimate, more than three times over in a single year! Let British statesmen, then, meet

THE TELEGRAPH.—The Governor has kind- ; the distatisfied Irishmen with a free passage to British America and five years' profitable employment after they get there—together with a free grant of a homestead in perpetuity for themselves as well as their offspring,—instead of meeting them with a detested Irish constabulary, and the time is not far distant, when blessings will take the place of curses throughout that small but discontented Island. If this course be promptly pursued, the nineteenth century will yet a populous, prosperous, and powerful offspring rewarding Mother Britannia for her generous outlay with an annual trade amounting to more than the original investment, besides rewarding her with a life-long spmpathy and enduring bulwark of defence on this rapidly developing, yet easily moulded, continent. But no time must be lost.—Qui non proficit, deficit. Miscellaneous Items.

The hearing of the bankruptoy case of Peto, Betts & Crampton has been resumed before Mr Commissioner Winslow, and the case adjourned. Mr Linklater stating that he hoped the next sitting would close the examination as far as Sir M. Peto and Mr Betts were concerned.

In the Court of Queen's Bench on Monday a rule was made absolute for a mandamus to the Bi-hop of London commanding him to read and examine certain books published by the Vicar of Frome, alleged to contain heretical doctrines on the subject of 'the real presence, &c, and then to exercise his discretion whether be will issue a commis-sion. This does not appear to be a great result, but it is important us indicating that the Court of Queen's Bench has jurisdiction

The police reports inform us that Ann Justice celebrated her escape from the fange of justice by getting drunk and presiding at an Irish riot in Little Pulteney street. She appeared at an open window, with her hair lasse, clapping her bands, and eccessing out 'A Fenian victory !' whilst her supout 'A region victory! within the street below. The police had to interfer, and actoral cases of drunkenness were not judicated upon by Mr Tyrwhitt, the Marlborough street police magistrate, who dismissed the offenders with good advice and small fines. Patrick Murphy was sentenced to a month, imprisonment for a trenth; imprisonment for a trenth in the street police. small fines. Patrick Murphy was sentenced to a months' imprisonment for attempting to rescue a prisoner and assaulting the police. Margaret Walsh, the pupil teacher in a

Catholic school at a child four years old, into a copper of boiling water, was tried at the Middlesex Ses-sions yesterday week. The defence, when the case was before the magistrate, was that the child was not intentionally put into the copper, but fell in by accident. She was acquitted.

At the Bow Street Police Court, on Mon-day, Barry and O'Keefe were charged on remand with being in possession of a quantity of inflammable matter, for the pu of committing a felony. Dr Noad, of Saint George's Hospital, stated that he had analysed the substance, and found it to consist of about 6 lbs. of phosphorus. When he tock it from the canister he placed it on a slab, and while he went into an adjoining room the whole burst into a tremendous confla gration spontaneously, and without anything being done to it. The substance was not gration spontaneously, and without anything being done to it. The substance was not explosive, but had ignited simply by the friction of the air. To make it dissolve it wanted mixing with bisulphate of carbon, and then it would have been real Greek fire in a liquid form. The prisoners were captured in front of Buckingham Palace. were again remanded.

Rewards, amounting in all to nearly £2000 are offered for the apprehension of the mur-derer of Mr Fetherstonehaugh, of Westmeath The landed proprietors of the country have contributed a large portion of the sum Three men arrested on suspicion are now in Mullingar Gaol, two of them being tenants on the estate and one a servant boy of a farmer.

Last year 81,724 emigrants left the different ports of Ireland; 45,861 were makes and 35,863 females

On the occasion of the matringe of Prince Humbert, the Venice Gazette of the 22d ult. appeared printed in blue ink and with congratulations in verse and prose addressed to the Paral pair. The foreverse the Royal pair. The first page was also sur-rounded with elegant vignettes.

A new port-that of Monopoli-has been A new port—that of Monopoli—has been opened on the Adriatic, a very populous and wealthy town in the province of Bari. The recreasantien authorities on the first stone. In commence of the time at which this ceremony has occurred the name of Princess Margherita has been given by the municipality to the nort. ity to the port.

THE BISHOP OF CAPETOWN AND NATAL. An appeal has just been lodged at the Privy Council on the part of Dr. Gray, the Bishop of Capetown, to reverse decision of the Supreme Court of Nata oniai Court in respect of certain land and buildings at Pietermaritzburg, to declare deed of grant, dated the 19th of March, 1850, by the Governor of Natal to the Bishop of Capetown in trust for the English Church, and summoned Dr. Gray to show cause why it should not be reduced in favour of Dr. Colenso, on the ground that Dr. Gray had ceased to be the legal successor of the see of Natal. The Supreme Court gave judgement in favor of Dr. Colenso, and decreed with cosis that the land in question should rest in him as Bishop of Natal. From the decision, Dr. Gray has appealed to Her Majesty in Council, and a copy of appeal was served by Mr. Brooks, his proctor, at the Privy Council, and the case will appear in the list of appeals before the Judicial Committee. It cannot, however, be heard for some months.

THE erection of a statue of Edmund Burko was contemplated, many years ago, by the people of Dublin; but the proposal dropped, and was nearly forgotten, till it was revived by a suggestion in the "Life of Edmund Burke," published in 1853. Serjeant Peter Burke, the author of that book, continued to advocate the erection both of a tablet, to the memory of the great statesman, at Beaconsfield, and a status of him in Dublin. The latter object was generously taken up and carried into execution by the late Earl of Carlisle, when Lord Lieutenant of Ireland Carlisle, when Lord Lieutenant or freama aided by the Right Hon. Sir Joseph Napier, Bart, and other persons of note in Ireland. Hence the beautiful statue, by Mr. Foley, which now stands beside that of Goldsmith, in College-green. The authorities of Trinity College, are about to modernize the quadrague, in about to modernise the quadrance in front of their buildings where the Prince of Wales uncovered the Burke statue.

They intend to plant shrubs and to place a

handsome jet d'eau in a suitable position.

by the Mayors in office of the cities of the United States and Canada, certifying to the superior excellence of Dr. Ayer's Compound Extract of Sarsaparilla and to the value of all his remedies as articles of great public utilit . Such evidence from such high sources bears us out triumphantly in the position we have long maintained with regard to Dr. Ayer's preparations, or more particularly our advertisements of them. No publishers need be more opposed than we are to the promulgation of quackery in any shape, but we knew when we began, that his remedies were above any suspicion of deception-that they were about the best it is possible to produce for the cure of disease, and that they have the confidence of all communities where they are known. Not alone because the Mayors of the whole country believe them useful to their people, but because we know from experience that they are so to ours, do we believe we are rendering a substantial service to our readers in making their virtues known to them .- [Courier, Princeton. that we tried the fig. carbonis detergens. It is represented to be a concentrated alcohoic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic acid. The addition of water, with agistation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapoutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic excentions cleases; and one case of psoriasis which had resisted all other kinds of treatment specific yellow the profession. In the above classes of disease, and in various others, such as etch discrepancies, and worthy of a very extended trial by the profession. descript years channing) has cover accurate the successfully trequel.

Bit, Gimon has the pleasure of announcing that he has returned, to this state, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Jake's, Old Street; St. Mary's, Camb. Place, Pad; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's Colege, Portugal street

Dr. Gimuox has spared neither time nor money in seeking out new repedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

ing out new reneales, and has returned with increased facilities for the aleviation of human suffering.

Horrible Bleanes.

How many thousands of persons, both male and temale are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardiana, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are carcelor, and oured before it be too late. Sena them immediately to Br. discovery, physician who has more than to cure the most involutional research than the cure of the most involution of the control of the control
